Gary – FYI below on the permanent buoy installation progress.

Thanks,
David

Subject: San Jacinto Buoy update

Just talked with Billy at Dorskocil. They are making good progress and should finish tomorrow on the initial installation.

Winds on Friday slowed installation, they were getting beat up pretty bad and stopped early. Winds out of the north and slightly higher than normal (2.5 ft) tides are speeding up installation today.

He will be monitoring the buoys and barrier over the next week or so and adjust the anchor cable lengths as needed to keep them on station.
